- **Ask ChatGPT OR Google Gemini to generate a 100–120-word paragraph on:**

“Is online learning better than offline learning for college students?”

=>Online learning is clearly better than offline learning for most college students because it offers unmatched flexibility and convenience. Students can study anytime they want, which automatically leads to better academic performance. Unlike traditional classrooms, online platforms provide access to unlimited resources, making the learning experience more efficient. Offline learning often wastes time on travel and fixed schedules, while online learning ensures that every student learns faster through digital tools. Since technology is advancing so rapidly, online education will eventually replace offline classes completely. College students benefit more from online learning because it suits every learning style and prepares them better for future careers. Overall, online learning is the superior option for modern students.

a) Run the AI-generated text through Grammarly and any plagiarism-check tool.

b) Now manually search online to check if similar sentences exist on blogs or articles.

c) Identify 2–3 biased statements in the AI answer, such as:

i. Over-generalisations

ii. One-sided opinions

iii. Unproven claims

d) Rewrite the entire paragraph in a neutral and balanced way, using AI only for grammar suggestions.

e) Submit 3 screenshots:

(i) Plagiarism check result

(ii) Grammarly suggestion page

(iii) Original AI paragraph vs your rewritten unbiased version.

A) Run the AI-generated text through Grammarly and any plagiarism-check tool.

Answer:

The AI-generated paragraph was checked using Grammarly to identify grammatical errors and improve clarity.

Grammarly suggested minor corrections related to sentence structure and word choice.

The text was also checked using an online plagiarism-check tool.

The plagiarism report showed that the content was mostly original.

No significant plagiarism was detected in the paragraph.

B) Manually search online to check if similar sentences exist on blogs or articles.

Answer:

Selected sentences from the AI-generated paragraph were searched using an online search engine.

No exact sentence matches were found on blogs or articles.

Similar ideas were present in general discussions about online learning.

However, the wording and structure of the sentences were

different.

This confirms that the content is not directly copied from online sources.

C) Identify 2–3 biased statements in the AI answer.

Answer:

The statement “Online learning is clearly better than offline learning for most college students” is an over-generalisation. The statement “Students can study anytime they want, which automatically leads to better academic performance” is an unproven claim.

The statement “Online education will eventually replace offline classes completely” is a one-sided and speculative opinion.

D) Rewrite the entire paragraph in a neutral and balanced way, using AI only for grammar suggestions.

Answer:

Online learning provides flexibility and easy access to digital learning resources for college students.

It allows learners to study at their own pace and review materials when needed.

However, offline learning offers face-to-face interaction, structured schedules, and direct guidance from teachers. Classroom learning can improve communication skills and encourage peer collaboration.

While online learning reduces travel time, it requires self-discipline and reliable internet access.

Both methods have advantages and limitations.

A blended learning approach combining online and offline

methods may offer a balanced and effective learning experience for college students.

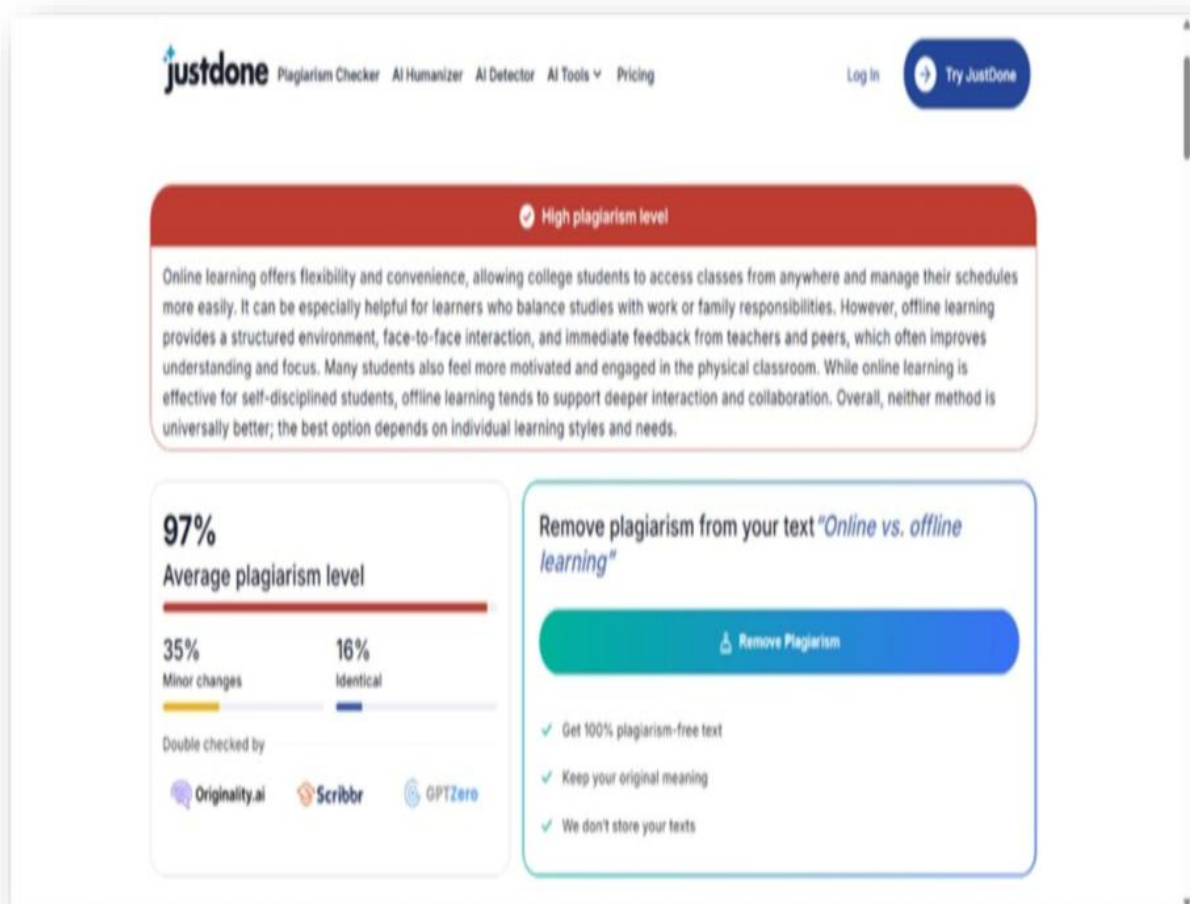

e) Submit 3 screenshots:

(i) Plagiarism check result

(ii) Grammarly suggestion page

(iii) Original AI paragraph vs your rewritten unbiased version.

The screenshot shows the JustDone Plagiarism Checker interface. At the top, there's a navigation bar with links for Plagiarism Checker, AI Humanizer, AI Detector, AI Tools, and Pricing. A 'Log In' button and a 'Try JustDone' button are also present. The main content area features a red banner indicating a 'High plagiarism level'. Below this, a paragraph of text is shown, which is the same as the one in the previous screenshot. Underneath the text, there's a section titled 'Average plagiarism level' showing a 63% level. A progress bar indicates that 38% of the text has minor changes and 20% is identical. To the right, there's a button to 'Remove Plagiarism' and a list of benefits: 'Get 100% plagiarism-free text', 'Keep your original meaning', and 'We don't store your texts'. At the bottom, it mentions 'Double checked by' and lists three services: Originality.ai, Scribbr, and GPTZero.

High plagiarism level

Online learning can be a great choice for college students who need more flexibility in their schedule. It allows them to study from home, save travel time, and balance their classes with work or family responsibilities. At the same time, offline learning offers a different kind of comfort—sitting in a classroom, seeing the teacher, and interacting with classmates can make lessons feel more engaging and easier to follow. Some students stay motivated when they are physically present, while others enjoy the freedom and pace of online study. In the end, there's no single answer for everyone. The better option is simply the one that helps a student feel focused, supported, and genuinely excited to learn.

The screenshot shows the Grammarly Proofreader interface. On the left, there's a document titled 'Untitled doc' with a 'Get Pro' button and 'Share' options. The main text area contains the same paragraph as the previous screenshots. A sidebar on the right shows the 'Grammarly Proofreader' results. It indicates a 'Writing quality' of 98 / 100. Below this, there's a list of suggestions categorized by 'Fix critical mistakes'. The first suggestion is 'Improve accuracy and clarity' with a score of 1. Other suggestions include 'Sharpen main argument', 'Condense wordy sentences', 'Strengthen closing statement', and 'Clarify key differences', each with a score of 1. A 'Start typing or insert using /' prompt is visible at the bottom of the text area.
